Experience

Product Designer

Testalyse

2026 - Now

Co-founded and led the product and UX/UI design of Testalyse, a web platform for IELTS practice. Designed the full test-taking experience — from question screens to results and feedback — along with the user dashboard.

UI/UX Designer

Salina

2026

Designed the responsive web and mobile UI for Salina, a Persian (RTL) e-commerce store for beauty and professional salon supplies with 800+ brands. Covered the home page, product detail page, and the user account and order-tracking flow.

UI/UX Designer

Carbird

2025

Designed a Telegram Mini App for finding nearby EV charging stations. Handled user flows, wireframes, and high-fidelity UI, with a focus on location-based search and station discovery.

UI/UX Designer

Wordune

2023 - 2025

Designed UX/UI for web products through the whole process — user flows, wireframes, and high-fidelity screens. Worked closely with developers to make sure the designs were built correctly and worked well across different screen sizes.

English Translator

Seoul International Exhibition & Chamber of Commerce

2022 - 2023

Provided English-Persian translation for international business meetings and exhibition interactions. Supported communication between Iranian and foreign companies and delegates.
